

## Youreka from iDiscoveri

Help your child learn to face the challenges of life and build confidence this summer with Youreka, the annual summer camp by iDiscoveri, an organisation that, for over a decade, has been giving young children the experience of adventure education programmes.

Youreka is an eight-day experience specially crafted for nine years to 17-year olds.

'Youreka' is a unique concept that blends nature and teaching through a very extraordinary method.

While the physical activity in natural surroundings is exciting and thrilling as an experience, what lies at the core of all these activities is training and education that helps individuals to explore their potential.

Major activities cover rockclimbing, mountain biking and 'back-packing'. Minor activities cover music, photography and journalism. At Youreka 2005, children have an option of choosing from iDiscoveri's own campus at Sitlakheth in Kumaon Hills and Tirthan in Himachal Pradesh or Tons in Garhwal Hills.
